

Kelvin Kwabena Apau

Data Science and Analytics student, aiming to become an AI engineer

kelvinapau00@gmail.com | kevap.vercel.app | linkedin.com/in/kelvin-apau-a300a73b3 | github.com/Michaelson00

PROFILE

Third year BSc Data Science student at GCTU. I take real data, including Ghana's own inflation figures, and work out what it shows using Python and pandas. Looking for internships in data and AI.

EDUCATION

Ghana Communication Technology University (GCTU) BSc Data Science and Analytics	2025 to present
Aggrey Memorial A.M.E. Zion Senior High School General Science. WASSCE certificate, 2024.	2022 to 2024

DATA SCIENCE PROJECTS

Ghana CPI and Inflation Analysis - Original analysis using data taken directly from the Ghana Statistical Service StatsBank. - Year-on-year inflation peaked at 54.17% in December 2022 and averaged 40.28% across 2023. Housing and utilities, and transport, were the top categories.	Python, pandas, NumPy, Matplotlib
NYC Airbnb Listings Cleaned and analyzed listings. Found very little price difference between room types and boroughs, and almost no link between price and number of reviews.	Python, pandas, Seaborn, Matplotlib
Global Banknotes: Historical Figures Analyzed 241 figures from 38 countries: 78.01% men and 21.99% women. Writers appear more often than politicians (18.67% vs 11.20%), and 33.2% died at least 100 years before appearing on a note.	Python, pandas, Matplotlib
Solar Eclipses, 1901 to 2100 Longest total eclipse lasted 428 seconds (June 20, 1955). Average totality was 211.96 seconds.	Python, pandas, Matplotlib
SentinelINIDS (in progress) Team leader on a network intrusion detection project using public datasets and captured network traffic. Also: smaller exploratory notebooks on the largest island and jeans pockets, plus Python and C++ practice programs on GitHub.	Machine learning, intrusion detection

LEADERSHIP AND EXPERIENCE

Lead Programmer, Aggrey Robotics Team Built DIPCA, an automatic irrigation system using IoT, and OPTIMO, a healthcare system that monitors vital signs. Certificate of Completion, 2024.	2022 to 2024
Volunteer, M and F Giving Circle Designed and ran digital fundraising campaigns for the education of underprivileged children.	2025 to present

SKILLS

Analysis: Python, pandas, NumPy, SQL, Jupyter Notebook **Charts:** Matplotlib, Seaborn **Workflow:** Git, GitHub, Vercel, C++, HTML, CSS

ACHIEVEMENTS AND LANGUAGES

- Best Student in Core Mathematics, 2023, and Best Student in Elective ICT, 2022 (Aggrey Memorial A.M.E. Zion SHS).
- freeCodeCamp Legacy Responsive Web Design certification, 2026.
- DataCamp, Associate Data Scientist in Python track (in progress): Introduction to Python, Intermediate Python, Introduction to Data Literacy, Data Manipulation with pandas and Joining Data with pandas completed, 2026.

Languages: English, French, Twi
